FINAL REPORT

- This dashboard analyzes the performance of AI-generated content across different platforms, content types, and AI tools.
- The analysis shows that YouTube and TikTok generate higher views, while Instagram performs moderately.
- Among AI tools, Cap Cut AI and Runway perform better in terms of views and overall performance.
- Short-form content like reels and shorts receives more engagement compared to long videos.
- Some AI tools generate high views but lower profit due to higher production cost.
- Overall, choosing the right AI tool, platform and content type helps improve engagement and profitability.
